

PUTTER AND MID-RANGE DISCS

Better for power players

Better in the wind, harder to turn over

MID-RANGE DISCS

Better for players with less power

Easier to throw far, turn over or roll

Gator
Quick and powerful, the Gator will wrestle the wind.

Cro
Count on the Cro. It was made for power lines and power players.

Spider
Weave your way to the target with this versatile Mid-Range.

Skeeter
Bitten by the disc golf bug? The Skeeter will repel bogeys.

Panther
A sleek hunter for wooded courses. For low, flat drives.

Kite
Blurring the lines between Mid-Range and Driver. A smooth turnover disc.

Roc3
The Roc for people who love to throw farther down the fairway.

Shark3
Swims smoothly down the fairway. Fast and sleek like its namesake.

Roc+
A mellower Roc for those looking to transition into the best Mid-Range.

Mako3
Built for straight shots to the pin with extra sweet glide on the side.

Super Stingray
More stable than the original Stingray, much straighter at speed.

Mako
Take a bite out of your score with the Mako. Bring your score down under.

Stingray
For graceful gliding flights. Just add power for more turn.

Roc
Like its namesake, this disc is larger than life. It's legendary.

Shark
No target is safe from the Shark. Smooth flights with bite at the end.

King Cobra
Wind & power resistant. Like a low profile Roc with a bit more speed.

Lycan
Easy to grip and release, the Lycan is consistent around the course.

Coyote
On the hunt? Chase down birdies with this untamed Mid-Range.

Cobra
Snake through the course. Smooth turn and fade for fabulous flights.

Wolf
The Wolf can help you capture elusive birdies.

Better for power players

Better in the wind, harder to turn over

PUTT & APPROACH DISCS

Better for players with less power

Easier to throw far, turn over or roll

Pig
When the wind kicks up, throw the Pig and bring home the bacon.

Hydra
Three heads are better than one. It floats, it putts and it approaches.

Classic Roc
The first true approach disc. Outclass your opponents.

Dart
Zero in on the target. A straight flyer that will hit the mark.

Aero
First in flight. The original golf disc is still the straightest.

XD
EXtra Distance for longer approaches. A great disc for starting out.

Wedge
Gain an edge with the Wedge. Open the door to lower scores.

Rhyno
Charge ahead of the competition. Ready to take on any headwind.

Aviar Driver
The Aviar for power players. Solid performance in all conditions.

KC Pro Aviar
Ken Climo's putter of choice. Stable and stiff. Good for windy approaches.

JK Pro Aviar-X
Juliana Korver's favorite putter. Grippy and dependable.

Yeti Pro Aviar
No more missing links. Low profile firm Pro grip. Unique concave design.

Aviar Putt & Approach
Our most popular disc. The choice of champions for over 25 years.

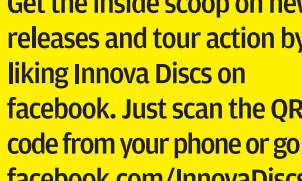

Classic Aviar
The straightest flying Aviar. Period. Stiffer feel and straighter flights.

Birdie
When you drive close, you want a Birdie. Don't settle for par.

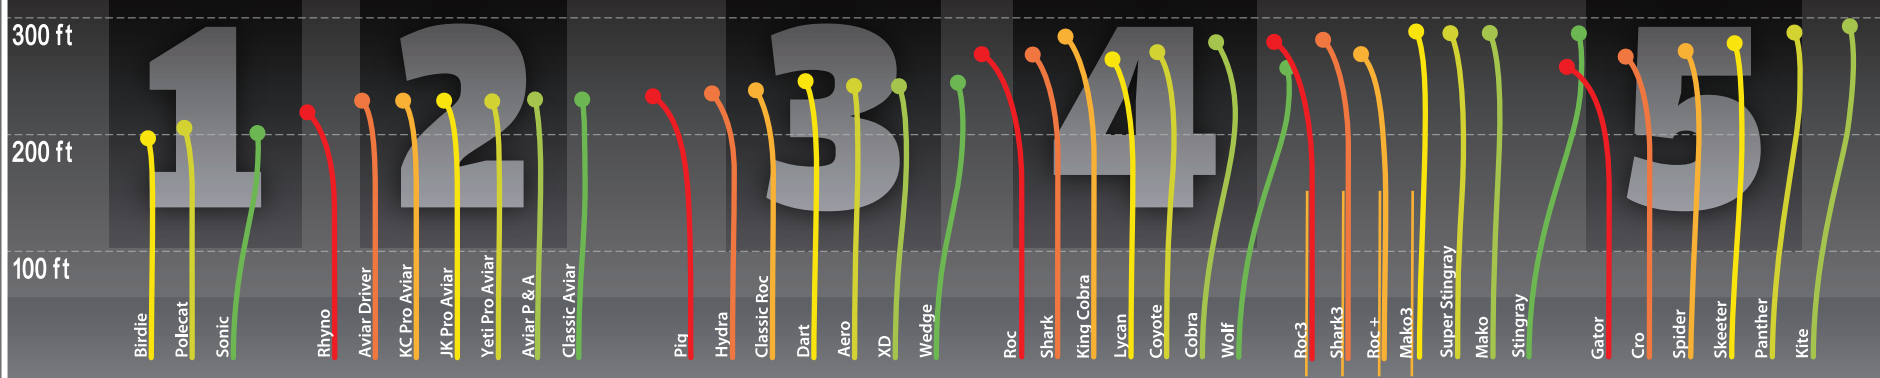

Polecat
Feel the line. Let it go and it flies straight to the pole.

Sonic
Hear the sweet sound of chains with this beginner friendly disc.

FLIGHT PATHS*

* Flight paths will vary based on skill, power and throwing style. Disc flights represent a flat straight right hand backhand throw in calm conditions at ideal throwing speed.

IT'S ALL IN THE NUMBERS

5/4/0/2

SPEED GLIDE TURN FADE

SPEED (first number) from 1 to 13
SPEED is the ability of a disc to cut through the air. Discs with higher numbers are faster, but require more power to achieve their true potential. Typically, a higher speed number means more upwind distance.

GLIDE (second number) from 1 to 6
GLIDE measures the disc's ability to stay aloft at different speeds. Typically, more glide means more downwind distance. Newer players should look for discs with more glide. A disc rated 6 has the most glide.

TURN (third number) High Speed Turn | from -5 to +1
TURN is the tendency of a disc to turn right (for RHBH* throwers) early in the flight. A disc rated +1 is most resistant to turn. A disc rated -5 will turn the easiest and is more suitable for newer players.

FADE (last number) Low Speed Fade | from 0 to 5
All discs tail off in the same direction (left for RHBH* shots), but some will "hook" harder than others. A disc rated 0 is the straightest finishing while a disc rated 5 will hook the most.

* Right Hand Back Hand throws

Grip / Durability / Performance

Choose the combination that best fits your needs.

D	DX Grip Durability	Benefits • Good all-weather grip • Widest range of weights offered • Most affordable • G Glow DX is great for night play!
R	R-PRO Grip Durability	Benefits • Good all-weather grip (best in wet weather) • Flexible plastic feels great in your hand • Best in cold weather
K	KC PRO Grip Durability	Benefits • Pro's choice for Putter and Mid-Range discs • For those who love the feel of DX, but want a longer lasting lifespan • KC Pro is a stiffer plastic that wears gradually
C	CHAMPION Grip Durability	Benefits • Long lasting durability - made for years of use • Recommended for use by power throwers • Slowest to lose original flight characteristics • CC glow Champion is great for night play!
E	ECHO Grip Durability	Benefits • Earth-friendly fusion of recycled and new plastics are long lasting and feel great • Improved glide over Star or Champion • Better grip than Star
S	STAR Grip Durability	Benefits • Best combination of grip and durability • Pros prefer the long lasting performance • Grip and performance get better with age

Choose a disc suited to you

CRUSHER Power players	THROWER Skilled players	FLINGER Beginners
We recommend heavier discs: 170 grams to max	We recommend mid-weight discs: 165-175 grams	We recommend lighter discs: 130-165 grams
To counteract high torque throws, choose heavy discs or discs on the left side of the chart.	Discs in the center of the chart are ideal for players who can get discs to mimic their flight lines.	Choose discs on the right of the chart and look for lighter weights. They'll make playing and improving fun!
